Dear Ana,

Very nice talking to you.

Thank you very much for your advice and comments on my Patent Application
No. 10/620,715.

Based on your advice, I elect my invention to be examined in class 210, subclass
490, under 35 U.S.C. 121.

I have made the following changes.

1. Claims 1 and 2 remain unchanged.
2. Claims 10 to 16 have been abandoned from this application, and a new divisional application will be filed (I'd like to get advice from you about this because I am not familiar with the divisional application at all.)
3. Claim 3 is renumbered as Claim 5.
4. Claims 4 and 5 are combined and renumbered as Claim 14.
5. Claim 6 is renumbered as Claim 15.
6. Claims 7 and 8 are combined and renumbered as Claim 16.
7. Claim 9 is renumbered as Claim 8.
8. New claims 3, 6, 7, 9, 10, 11, 12, and 13 are added to replace the abandoned Claims 10 to 16.
9. The total number of the claims after revision remains the same as before, however, there is only one independent claim (Claim 1) and 15 dependent claims after the revision. In contrast, there were four independent claims and 12 dependent claims before the revision.

I really appreciate your examination and advice.
I am looking forward to hearing from you.

Respectfully Yours,

Jiang Ji, Ph.D.
